REVIEWS:

"In an effort to share the healing energy of these crystals, we have transferred the energy of the crystal lights into the crystal bowls. With the help and expertise of Lupito—the co-founder of Crystal Tones—we used crystal bowls specially selected for their tones and vibrational qualities to convert the healing energy of the crystals into the sounds you hear on this album."

—WADUDA, ENERGY ALCHEMIST

"Listening to this album is a genuinely healing experience. It effortlessly resets the chakras and harmonizes the body. I personally enjoy using it while meditating to help calm my mind. During healing sessions, playing this album allows me to check in with my body and drop deeper into my awareness of areas that might need attention. Crystal Chakra Healing greatly enhances my ability to be present and creates a deep sense of peace and connection to Source Energy."

—MARTINA HOFFMANN, VISIONARY ARTIST

INSPIRATION:

JOAO, JOHN OF GOD

The sounds in this album contain the healing energy of the crystals from the Casa of Don Ignacio de Loyola in Abadiânia, Brasil. This project and the crystals themselves have been blessed by João Teixeira de Faria, John of God, and the energy he incorporates.

ARTIST BIO:

WADUDA, PRASANNA, & THE MYSTERY

Waduda and Bhikkhu, the co-founders of New Earth Records, were inspired to create this album after a healing journey to Brasil at the Casa of Don Ignacio, where they both experienced the healing energy of the crystals of Joao. Waduda has been leading healing and sound seminars over the years and has experience with the healing power of the chakras. She is not a professional musician, but plays the tanpura and is familiar with crystal bowls. Waduda and Prasanna, a musician and producer from Akashic Recordings in Boulder, Colorado, met years ago in India. Together, they invited five more people including Ashik, Iha, Bhikkhu, Paola, and Anupam.

ALBUM DESCRIPTION:

This album is an experiment of sonic vibrations in action - an alchemical transformation of crystals through light and sounds. The crystal bowls have not been played, but rather, each of the seven people that participated in this process simply retrieved the sound of 'now'. The crystal lights - from the Casa of Don Ignacio in Brasil - integrated with the crystal bowls - from Crystal Tones - provide you with the potential to bathe in an amazing healing vibration of 'now', no matter where you are.
