## REVIEWS:

*"Moved away of voices and natural sounds, Terry Oldfield is more acoustic than ever. Sweet Awakenings includes flutes (especially the silver flute), classical guitar and piano, and ultimately offers the listener a context of perfect evasion. A very personal album where the artist remains true to his style and musical offerings, and relies on the instruments to create an extraordinary atmosphere of peace. Sweet Awakenings is highly recommended to explore your imagination, or to simply relax."*

## ARTIST BIO

One of the most celebrated names in New Age music, Terry Oldfield has recorded over 20 albums and is well known for his outstanding television and film soundtracks. He has also been nominated for a British Academy Award, and two prestigious Emmy Awards. Terry plays the silver flute, bansuri flute, pan pipes, piano, keyboard, and guitar.

## ALBUM DESCRIPTION:

In Sweet Awakenings, Terry Oldfield brings you to a state of relaxed awareness. The melodies that come out of Terry's flute come from a space of emptiness that creates a timeless landscape where you can let go into a field of healing and relaxation. Terry says, "It has been a wonderful journey for me to awaken once more to the simplicity of playing this silver flute - the one that helped me to notice what is passing through - in this moment - where the music flows. These pieces represent those precious moments when everything falls away and we find ourselves melting into the source of everything which is pure love. This is my offering to you in this timeless moment - May it bring you peace."
